

MEMBERSHIP REPORT AT AGM COHUNA

3RD MARCH 2022

I was going to start this report by saying it is fantastic to see all your happy faces but being astute people, you will realize my words are now coming out of Rosemary's mouth. So thank you Rosemary!

Firstly, I would like to thank all those members who make my job so much fun and for all the interesting characters I meet along the way

Just to throw a few statistics your way

- 925 current members this is down 40 from last AGM, possibly due to Covid,
- 725 of those are on our Solos Facebook page and I encourage you all to join as that is where we share travel info, great locations, photos, funny stories, bad jokes and advice.
- 30% men & 70% Women, to the males here today please tell your mates about us we would love to have more men join

Please feel free to pop onto our website solosnetwork.net for more comprehensive information

Can I recommend you use the CMCA Wanderer Magazine online when you are travelling to find Chapter events in the area and please also make use of the free Member Stop Over (known as MSO) which can be found on CMCA Connect website.

Currently There are 11 Bird Chapters throughout Australia who are made up of predominantly Solos, they meet once a month for camping trips

From April we no longer have A Secretarial Service who used to send out your welcome pack, newsletters and receive mail however as this work is being taken on by volunteers Solos will no longer have a mailing address which means we can longer accept cheques, but you can bank them at your bank or post office or for those who struggle will this please phone me and I will help you

In closing I would like to thank you for supporting me to do something I really love.

Hope to see you in Gemtree

So that's it from me! Have a great rally & play up as much as you like as we need some items for our next newsletter??

I move this report be adopted, would someone like to second
